3 / Gather the children around the pinata circle far enough to avoid being hit by the stick.

4 / blind the eyes of a first child. He will have to break the pinata with the stick. to make things more difficult, let him rotate twice before starting.

5 / set up a limited time for each child (10 or 15 seconds), just the time of a rhyme or count down to let each child get a chance to hit the pinata and free the candies...

6 / During the game, others can try to facilitate or at the contrary make things more difficult by giving him indication such "Higher, left,..." the referee can also play such a role.

7 / usually, at about 15 or 30 minutes, all the candies and confettis fall down from the broken pinata. Children have only to grab and tshare them.

8 / Eat candies only...

9 / Pick up all the papers and confettis from the ground and put them in the dustbin.

10 / Enjoy the game & bon appétit !!!
